with 24 notches**

MCB-625-2675-4

Walt Powley Inline, Inc. is the worldwide leading supplier of replacement cutting blades for use with WPM rotary cutters. Our "TNT" coated die rule cutting blades are manufactured to exacting height specifications (  $\pm .0005$  ") and include an enhanced cutting edge coating that provides maximum knife life and superior cut quality even against the most aggressive paper stocks!

- Heavy duty (thick) replacement cutting blade.
- Enhanced "TNT" cutting edge coating will dramatically increase knife life.
- Best used for thick and / or aggressive paper stocks, two web inline / offline finishing systems and longer production runs.
- Manufactured to exceed OEM specifications.

**Custom blade lengths available**
