

PROTECTIVE / SCORING TAPE

For use with General Pressroom Applications & Inline Scoring

This protective / scoring tape provides excellent wear resistance and protection against abrasion and scratching on all metal surfaces. Typically used on support rollers, idler rollers, draw rollers, rotary plows, plow shoes, and angle bars. Protective / scoring tape can also be used to enhance the quality of inline scoring by wrapping the draw roller below a scoring wheel to create a "channeled" scoring matrix.

Features

- High strength acrylic pressure sensitive adhesive (PSA) that provides superior bond strength and chemical resistance but easy cleanup.
- Translucent in color with blue adhesive release backing.

Specs (Please call for Pricing)

WIDTH	THICKNESS	ROLL SIZE	PART NUMBER
¼"	.010"	18 yards	TT-250-18
½"	.010"	18 yards	TT-500-18
